

# Affected Dispatch Interval Report

Trading Month June 2026

Prepared in accordance with  
clause 7.11C.3 of the ESM Rules

# 1 Introduction

The Australian Energy Market Operator (AEMO) has prepared this report under clause 7.11C.3 of the Electricity System and Market Rules (ESM Rules).

Clause 7.11C.3 of the ESM Rules requires AEMO to publish a report as soon as practicable after determining a Dispatch Interval is an Affected Dispatch Interval outlining:

- the reasons for determining that a Dispatch Interval was an Affected Dispatch Interval.
- whether that determination was correct; and
- what action will be taken to minimise the risk of a similar event in future.

In this report:

- the reporting period covers the period specified on the title page,
- terms that are capitalised but not defined have the meaning given in the WEM Rules; and,
- date references are to Trading Days, not calendar days, unless otherwise stated.

## 2 Affected Dispatch Interval(s)

This section provides details of the Dispatch Intervals AEMO has determined to be Affected Dispatch Intervals in accordance with 7.11C.2. In accordance with clause 7.11C.3(b) at the time of publication of this report AEMO considers the determination correct.

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                 |

| Trading Day                               | 18 June 2026                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                 |
| Dispatch Interval(s)                      | Affected Dispatch Interval                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Replacement Market Schedule Run |
|                                           | 18-06-2026 14:05                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Casefile Corrected              |
| Reasons for Determination<br>[7.11C.3(a)] | <p>During an injection test conducted by Western Power a simulated signal was ingested by WEMDE. Consequently, a Network Constraint violated, and several Facilities were erroneously constrained down.</p> <p>The casefile for the Affected Dispatch Interval was updated with the corrected Dispatch Inputs and was re-run using the Dispatch Algorithm to produce the replacement Market Schedule Run.</p> <p>AEMO has determined these are Affected Dispatch Intervals as the market outcomes were based on manifestly incorrect information, directly resulting in material impacts to Market Clearing Prices.</p> |                                 |
| Determination Outcome<br>[7.11C.3(b)]     | Correct                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                 |
| Actions Taken<br>[7.11C.3(c)]             | Control Room processes are being reviewed and uplifted on an ongoing basis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                 |

| <b>Reasons for Determination</b><br><b>[7.11C.3(a)]</b> | <p>During a Forced Outage, the floored sent-out MW reading for a single Facility was incorrectly tagged as 'Not in Service'. As this input contributes to the calculation of total Operational Demand, the error resulted in manifestly incorrect data being used to produce load forecasts, which are consumed by the Dispatch Algorithm to produce market schedules.</p> <p>For intervals 09:10 – 09:20 (inclusive), in accordance with Clause 7.11B.1B (a) of the ESM Rules, AEMO replaced the Affected Dispatch Intervals with the forecasted Dispatch Intervals from the most recent Dispatch Schedule AEMO reasonably considered to not include manifestly incorrect data.</p> <p>AEMO has determined these three intervals are Affected Dispatch Intervals as the market outcomes were based on manifestly incorrect information, directly resulting in material impacts to Market Clearing Prices.</p> <p>For intervals 09:25 – 11:35 (inclusive), in the absence of a suitable Replacement Market Schedule under clauses 7.11B.1B(a), 7.11B.1B(b), and 7.11B.1B(bA) of the WEM Rules, AEMO cannot determine the variation of Market Clearing Prices, however, AEMO reasonably considers the manifestly incorrect data to have materially impacted Market Clearing Prices. These intervals will be replaced with themselves and are determined to be Affected Dispatch Intervals in accordance with clause 7.11B.1B(c).</p> |
